HOW IT WORKS

A Caliber Signature Blowout is far more than blow-drying. It starts with a professional shampoo and scalp massage, followed by expert blending and layering with products designed for your hair's unique fabric and the BLOBAR style you choose.

Then we craft each individual section with the perfect brushes and hot tools. Once your hair is set, pinned and sprayed, unwind with a drink, let your hair cool down and get ready to stun.

The best part? A Caliber Blowout *lasts*. Whether you leave the Studio perfectly pinned-up, fashionably flat-brushed, or with bouncing, sexy curls... we'll have your hair looking runway-ready for tonight while holding for days.

Ask to see our complete menu of hair cut, color and treatment services.

A stunning look for *every* attitude.
